Forecast for Friday 25 Jun 2021

Weather: Rather cloudy with some patchy light rain or drizzle developing across eastern peaks, such as Loch Lomond and the Trossachs. However most central and western ranges will stay dry with best of the limited bright or sunny spells appearing over the Isles and coastal ranges.

Chance of cloud free mountain/hill tops above 800m: Ranging from 40% in east and 80% in west.

Visibility: Good, occasionally moderate or poor in rain and drizzle, also very poor in hill fog with bases broken to extensive 700-1000m in east, 800-1200m in west.

Met Office Aberdeen Meteorologist's View
Most difficult conditions in far east. Winds gusting 50-55 mph early morning across most exposed ridges and summits, bringing a significant wind chill.

Forecast for Saturday 26 Jun 2021
Weather: Rather cloudy start with some patchy light rain from the Great Glen eastwards. Gradually dry and bright conditions will feed from the northwest to reach all from late morning.

Maximum wind: Mainly NE 15 mph or less.

Chance of cloud free mountain/hill tops above 800m: 40% at first in east, otherwise 90%.

Visibility: Good or very good, occasionally moderate or poor at first in patchy rain, also very poor in hill fog with bases 800-1200m broken or overcast at first in east, otherwise increasingly well scattered.

Temperature: **Glens:** Plus 5 Celsius increasing 19 Celsius during the afternoon
At 800m: Plus 5 Celsius increasing 8 Celsius for a time
Freezing level: Above all summits
